

## **Hartek Group takes leading management consultant Jeet Chhatwal on Board as Director**

- Ø A noted expert with 37 years of experience in EPC domain, Mr Chhatwal will be responsible for setting the pace for Hartek Group's current operations, scaling up its future growth
- Ø Mr Chhatwal's exposure in various multinationals in senior leadership positions will help Hartek Group foster a world-class work culture
- Ø Hartek Group will draw on his rich experience to develop innovative automated systems and procedures which improve productivity, bring more efficiency

**Chandigarh, March 16, 2017:** The Hartek Group, one of India's fastest growing concerns in the power sector, has announced the appointment of leading management consultant and leadership trainer Jeet Chhatwal to its Board of Directors.

A noted expert with 37 years of experience in the Engineering, Procurement and Construction (EPC) domain in the oil, gas and power sectors, Mr Chhatwal will be responsible for setting the pace for the Hartek Group's current operations and scaling up its future growth in his capacity as Additional Director.

The Hartek Group will make the most of Mr Chhatwal's rich experience to develop innovative automated systems and procedures for day-to-day activities which improve productivity and bring more efficiency.

"Mr Chhatwal's exposure in various multinationals in senior leadership positions will help the Hartek Group foster a world-class work culture that meets the avowed objectives of our organisation as well as the expectations of our clients," said **Mr Hartek Singh, Founder and CMD, Hartek Group.**

Excited about his new role, **Mr Chhatwal** said, “We will adopt the best global systems and practices to take the Hartek Group to the next level. What sets the Hartek Group apart is its diversified portfolio with an integrated model, and we will further build on it.”

Mr Chhatwal started his career with Indian public sector giant BHEL, where he worked for 17 years in various important capacities before switching over to internationally renowned companies like Fluor and Bechtel. He worked as HoD (Electrical, Control Systems) and Manager (Quality) with Fluor for nine years from 1996 to 2005 and as Project Engineering Manager and Chief Engineer (Electrical) with Bechtel India from 2005 to 2010. Mr Chhatwal took his career graph to a new high in 2010 when he joined SK E&C of the SK Group, a Fortune 100 Korean multinational giant, where he worked for six years as Executive Director and Divisional Head (Engineering).

The author of the much-acclaimed book “BOSS - Build Ownership to Succeed and Sustain”, Mr Chhatwal has also initiated “Mission Professionalism” with an aim to promote a culture of professionalism in India.
