

Hartek Power bags substation order from HSIIDC

While the deadline for the Kundli project is November 30, the project at Rai is stipulated for completion by February 28 next year.

Chandigarh, July 10, 2018: Chandigarh-based Hartek Power has bagged an order from Haryana State Industrial and Infrastructure Development Corporation (HSIIDC) for executing a 132-KV substation project at Kundli and Rai in Sonapat district of Haryana.

To be commissioned at a cost of Rs 9.17 crore, this HSIIDC project will involve designing, manufacturing, supply, erection, testing and commissioning of 16/20-MVA and 132/11-KV Transformer Bay Extension at the existing 132-KV substation in Rai and Kundli on turnkey basis, a company statement said.

While the deadline for the Kundli project is November 30, the project at Rai is stipulated for completion by February 28 next year.

Hartek Group Director Strategy Simarpreet Singh said, "Electricity being a backbone of industrial sector, this substation will play an important role by catering to 80 per cent of the industry in Rai and Kundli in Haryana." The company, which also provides complete solar EPC solutions, has connected 1,143 MW of solar power to the grid for leading independent power producers., it added.
