About Us

Hartek Group is one of the fastest growing companies in India, with offerings that span across Engineering, Construction, Renewables, Technology, Fuel and Manufacturing.

Hartek Group, founded in 1991, has grown to become one of the most admired brands in the Power and infrastructure space having business interests across the value chain. The group operates through five strategic business units: Power Systems | Solar Solutions | Power Distribution Products | Smart Cities/Smart Grids | Fuel Services | Value Added Services and is a Billion INR plus organization. Significant collaborations, technical know-how support and licence agreements with select industry giants, have helped Hartek Group to achieve unprecedented growth and pan India recognition.

We envision becoming a global leader in providing Engineering, Procurement, Construction and Manufacturing solutions in the field of Power Systems, Power Distribution and Renewables.

Our strategic offerings include:

POWER
SYSTEMS

Letter from Founder & Group CMD

From a trading house of high-voltage electrical equipment's to an integrated company with a diversified portfolio catering to the entire power sector value chain, we have come a long way. It has been a splendid journey indeed. As India scripts its growth story, we rededicate ourselves towards contributing to the greater cause of nation building through value creation in the power infrastructure and renewable energy space.

Over the years, Hartek Group has seen impressive growth, which reflects all the hard work put in by our industrious team. People, be it our employees or business associates, have always been our greatest assets, and we owe our success entirely to them. I have always believed that business is a by-product of the values we possess, and the core values of Hartek Group serve as an inspiration for each one of us to strive for greater excellence.

Sustainability being at the core of our strategies, we will continue to invest in sustainable technologies. As a conscientious corporate citizen, we will also keep on doing our bit to make this world a better place through socially meaningful initiatives.

Mr. Hartek Singh (HS)
Founder & Group CMD

Business is the
byproduct of the
values we possess
and these core
values of a company
shall always remain
intact.

Value System & Philosophy

At Hartek, we put great emphasis on five core values that we call the foundation of our belief system. They are as follows:

SAFETY

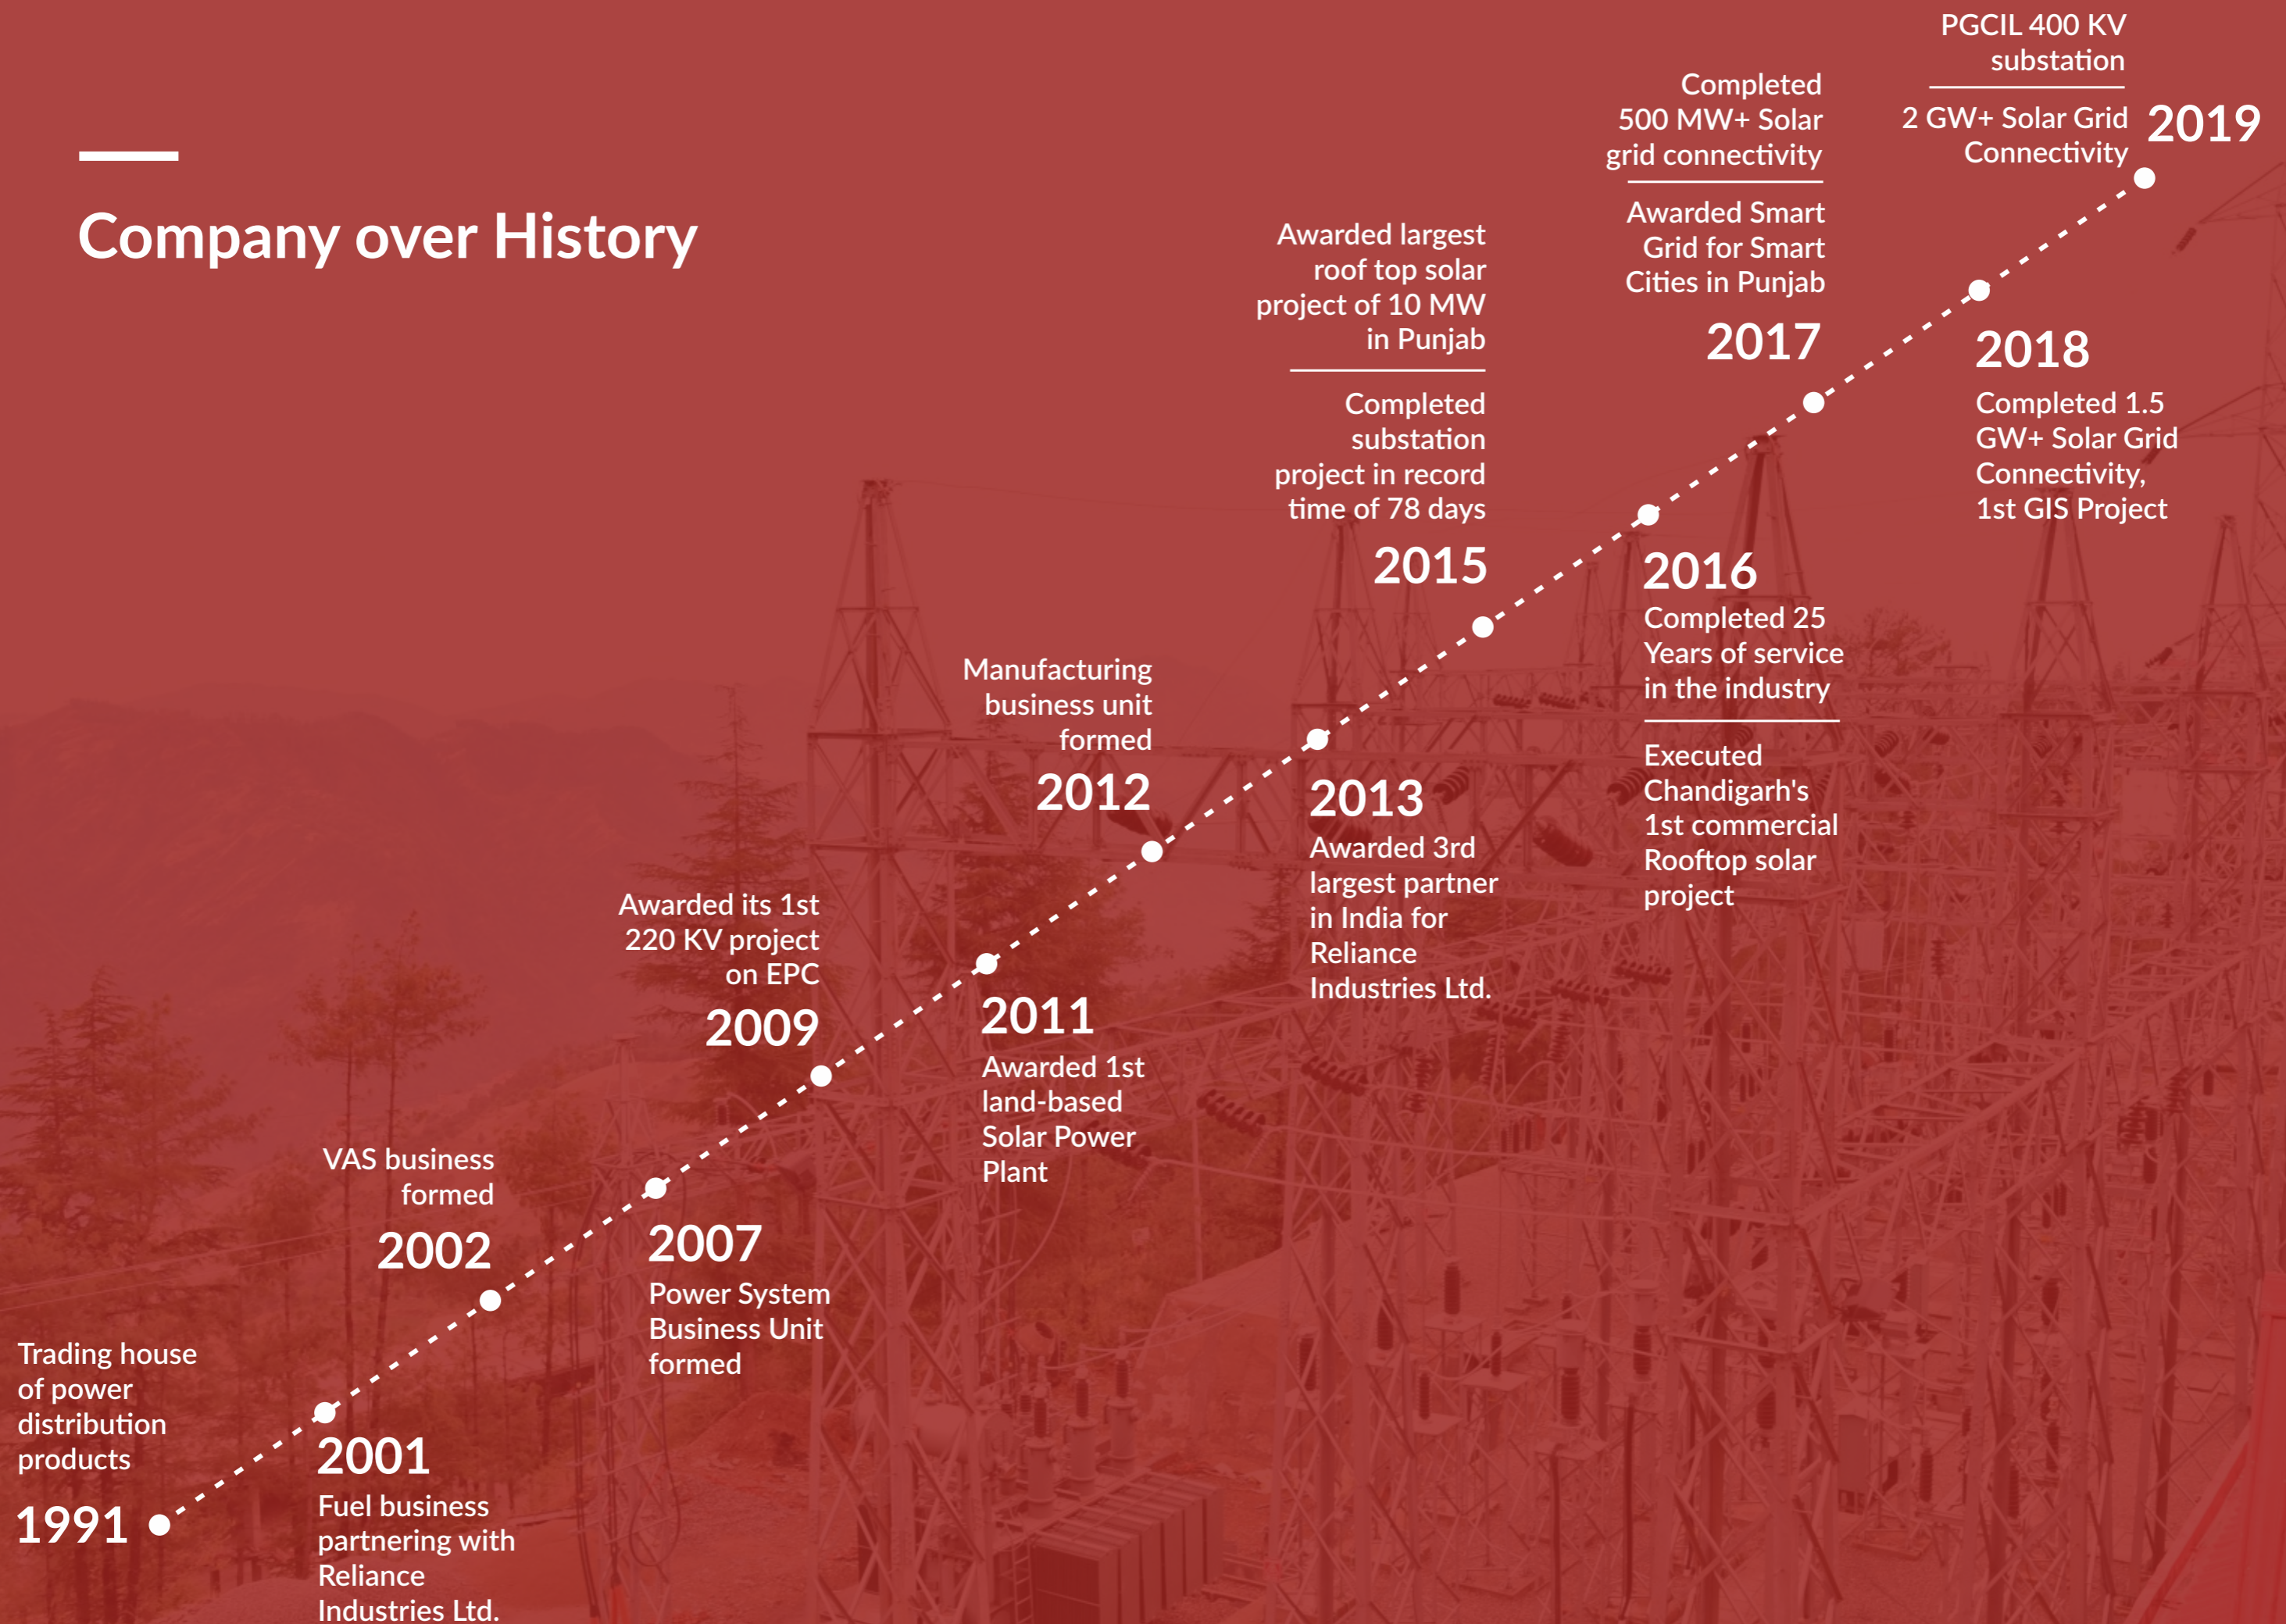

INTEGRITY

TRANSPARENCY

COLLABORATION

ENTREPRENEURSHIP

Company over History

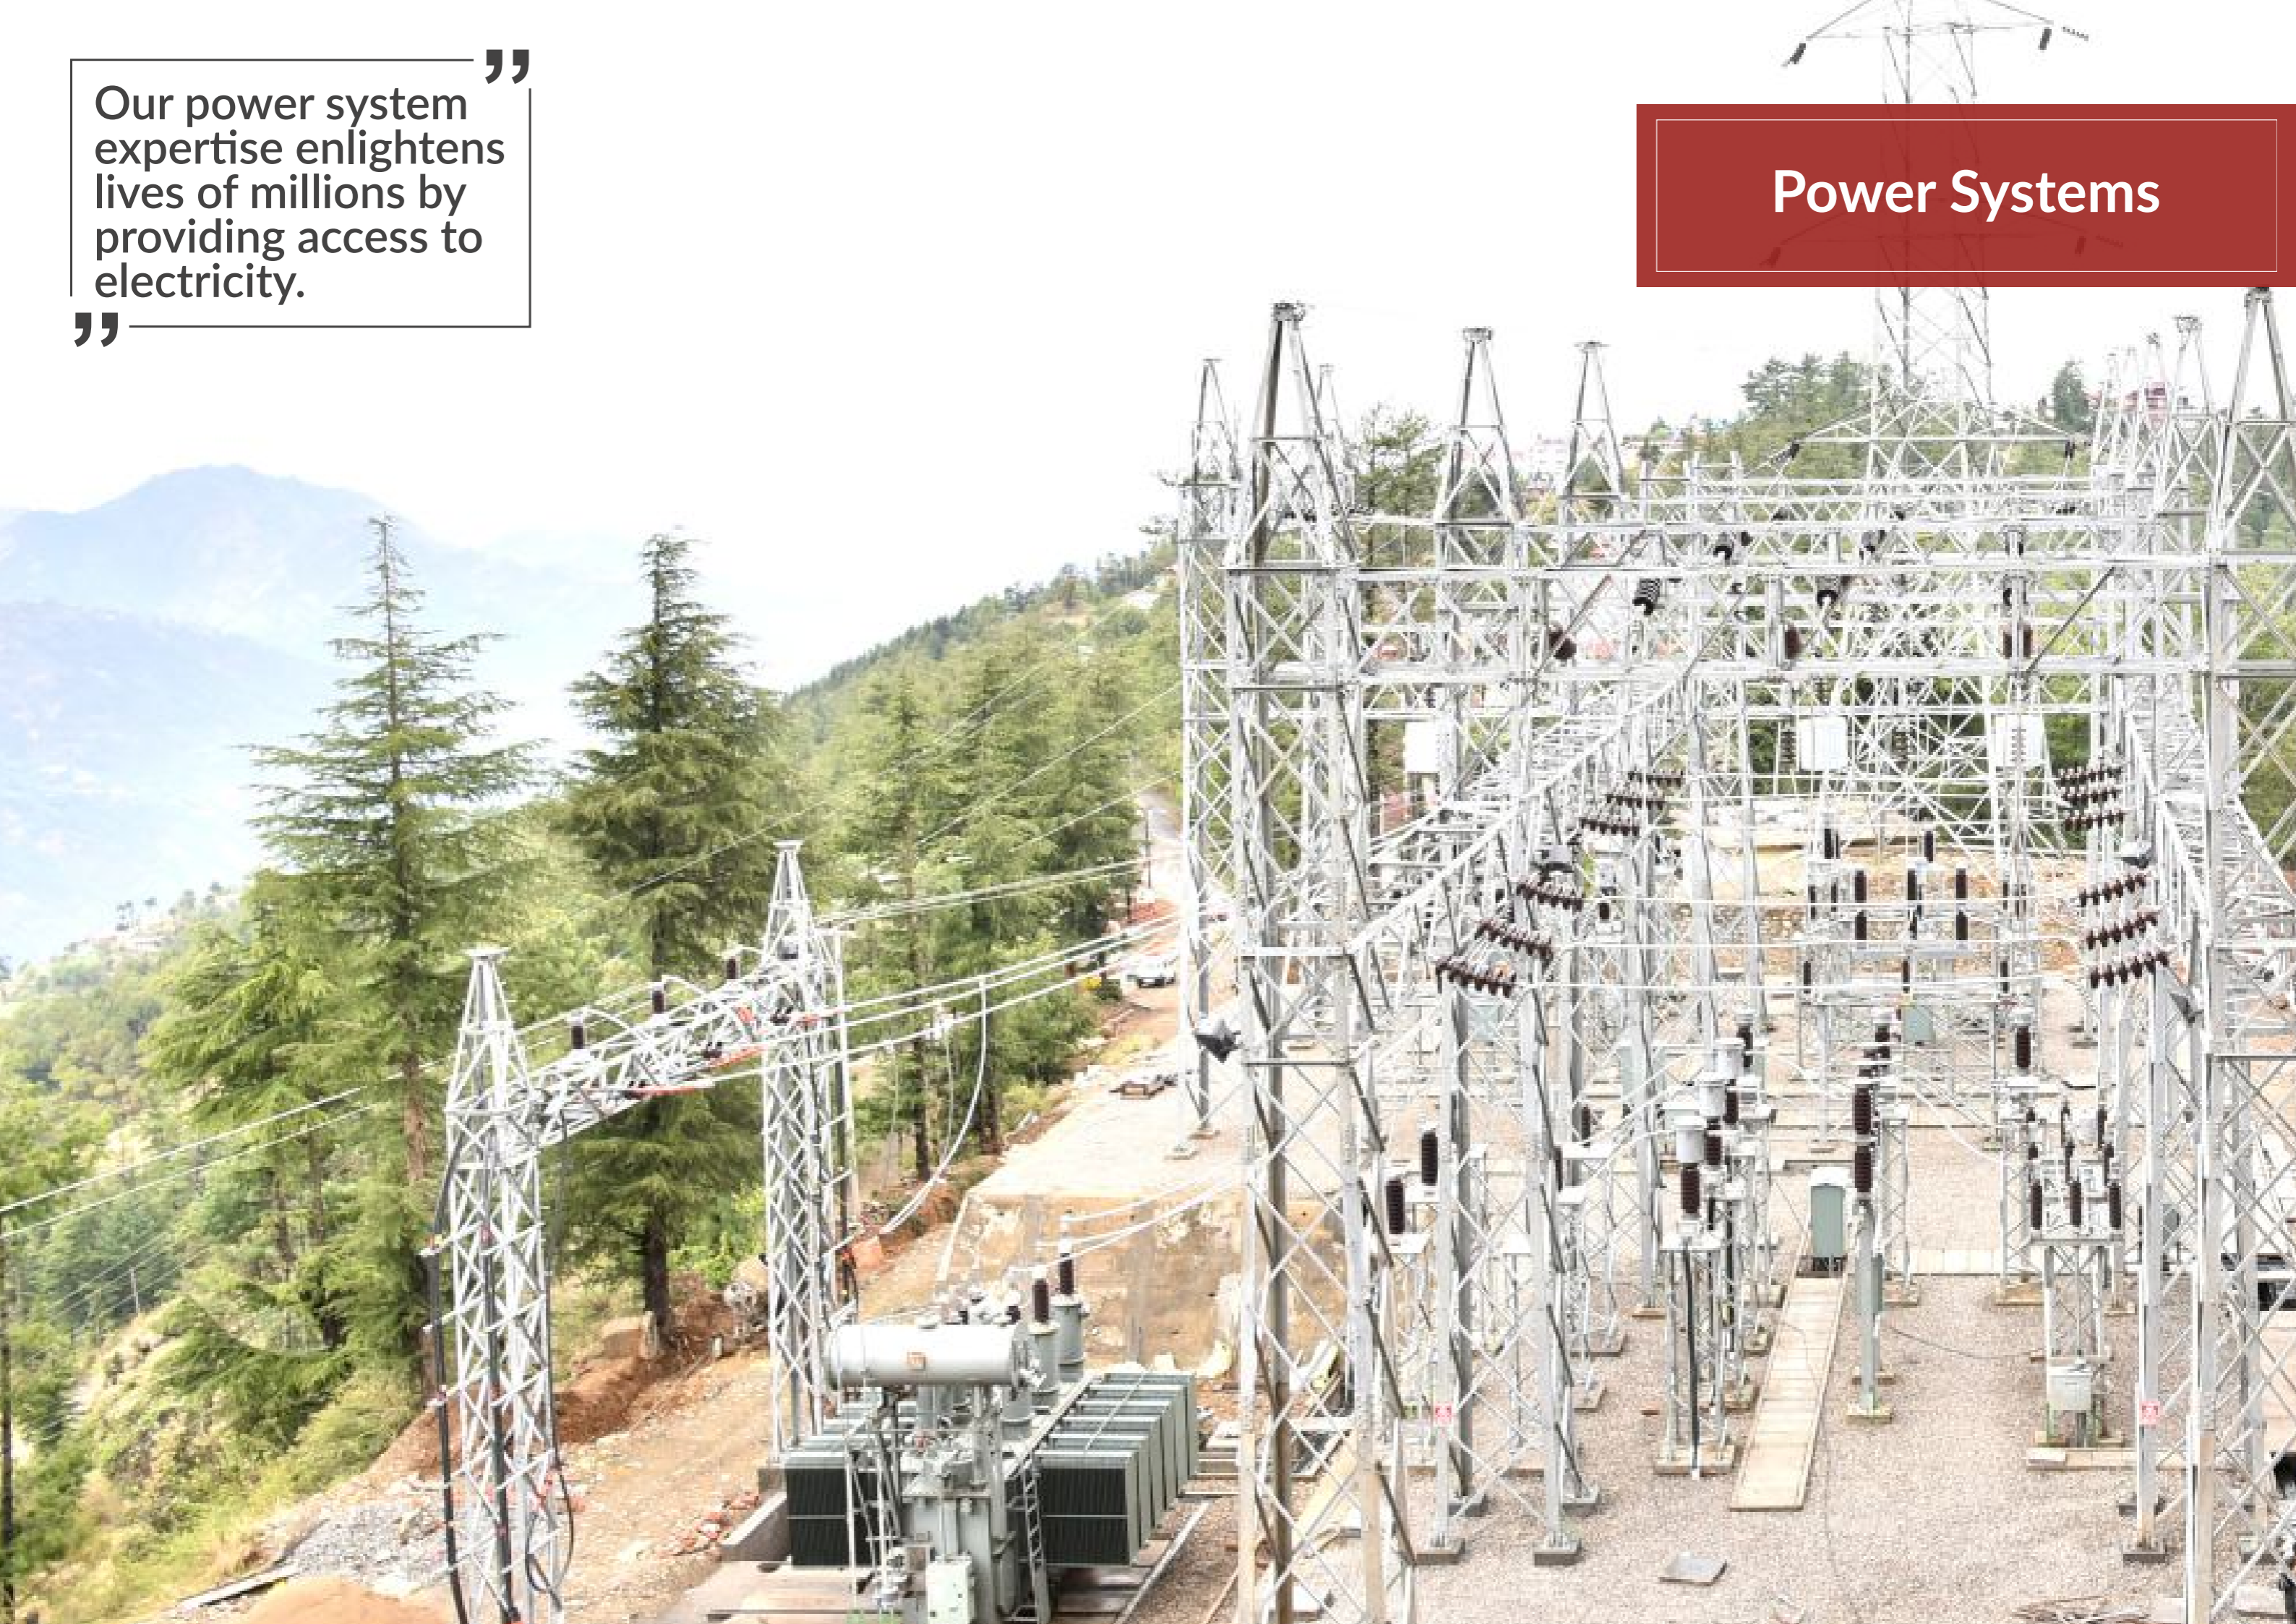

We envision touching billions of lives around the world through energy efficient and renewable energy solutions.

”
Our power system
expertise enlightens
lives of millions by
providing access to
electricity.
”

Power Systems

Engineering, procurement, construction, project management and commissioning for EHV & HV substation for utilities, industries and IPPs.

Our Solutions:

EHV & HV
SUBSTATIONS

INDUSTRIAL
ELECTRIFICATION

ELECTRICAL
CONTRACTS

TRANSMISSION
PROJECTS

CIVIL
PROJECTS

200+ EHV & HV Substations

Engineering Expertise

World Class Project Management

On-field Execution Expertise

Proficiency in executing in Tough Terrains

In-house Project Commissioning Expertise

Assured Quality & Timely Execution

”
Building a
sustainable and
powerful future
through our solar
expertise.
”

Solar

Complete solar solutions from design till end commissioning of projects for commercial, industrial, institutional and residential categories to achieve greater control, reliability and energy security.

Our Solutions:

SOLAR
UTILITY
SCALE

ROOFTOP
SOLAR

OPERATION
&
MAINTENANCE

2 GW+ Solar Grid Connectivity

Smart Innovations: Digital Substations

25 MW+ Rooftop Solar Experience

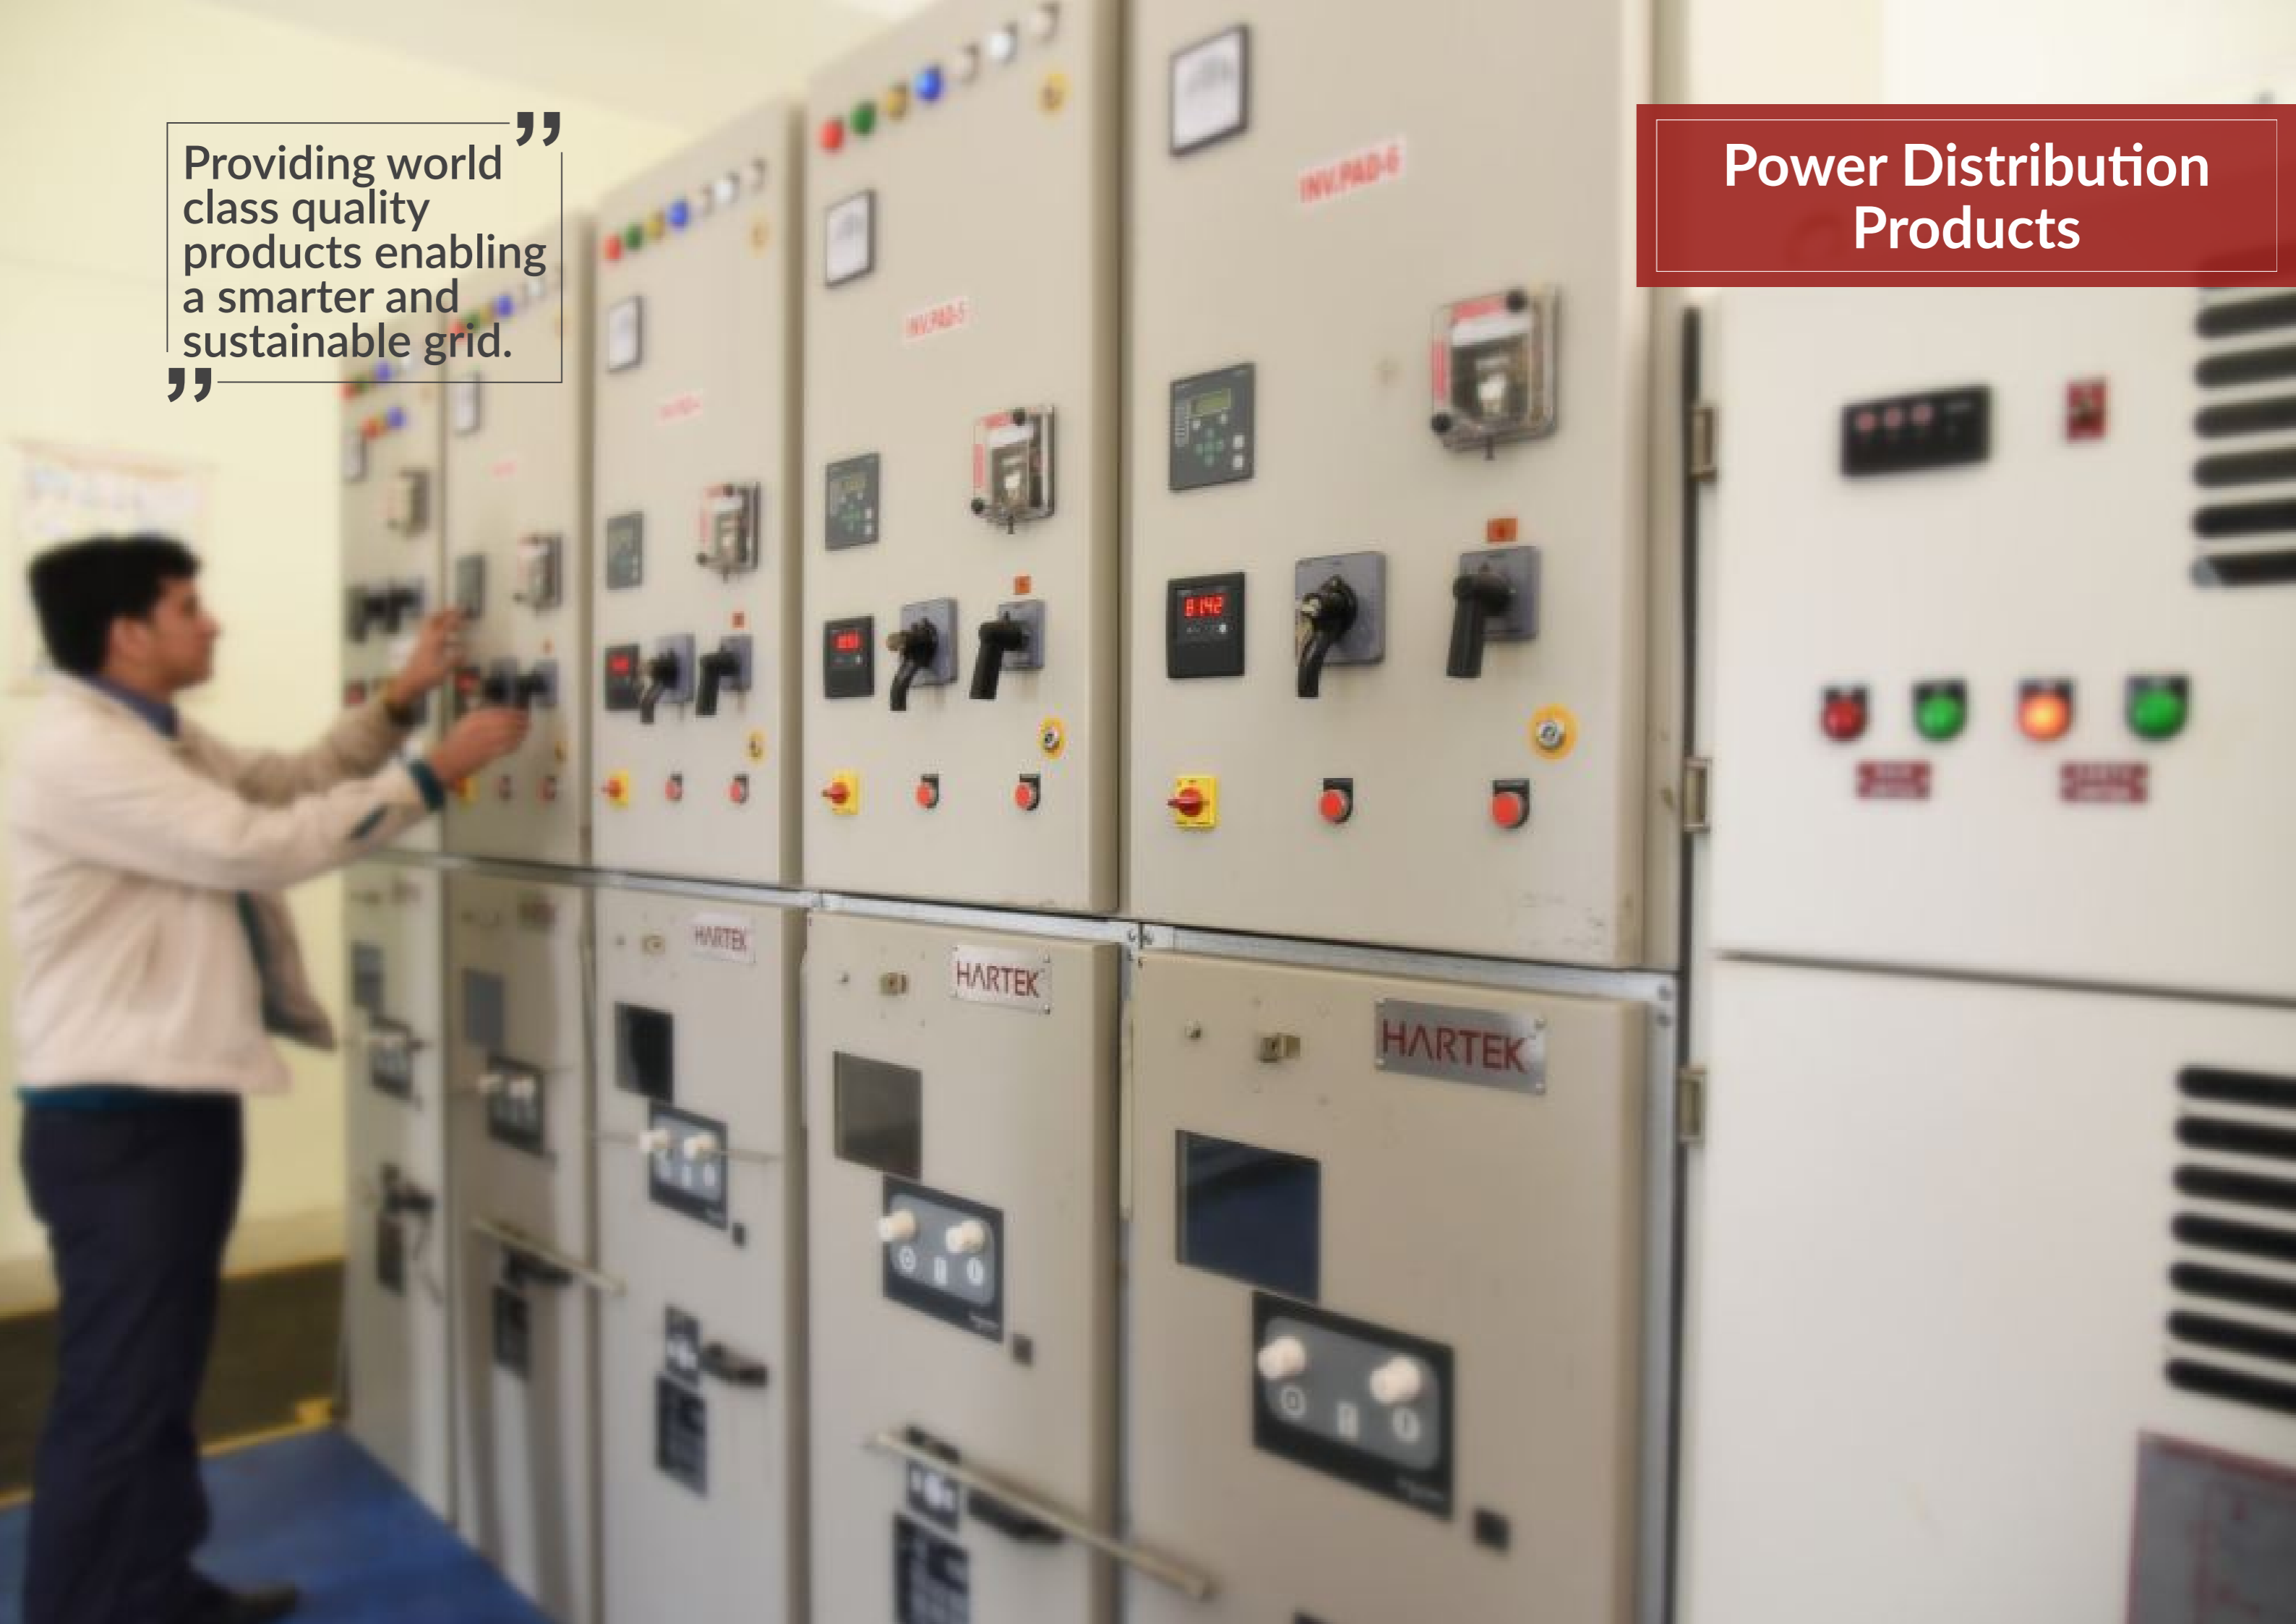

Rated as top 10 solar rooftop installers in India
(Mercom Rating - Most preferable Solar Roof Top Company)

Commissioned Chandigarh's 1st commercial rooftop solar project

”
Providing world
class quality
products enabling
a smarter and
sustainable grid.
”

Power Distribution Products

Complete range of HT & LT equipments for transmission and distribution and cater to the power needs of any up coming new industry or expansion of any existing unit.

Our Products:

MEDIUM
VOLTAGE
SWITCHBOARD
PANEL

CONTROL
RELAY
PANEL

LOW VOLTAGE

”

Sustainability

The famous saying by noble Laurete Waangari Maathai states “The environment and the economy are two sides of the same coin, if we cannot sustain the environment we cannot sustain ourselves.”

At Hartek, we are committed to ensure environmentally sustainable and responsible operations to achieve highest standards of excellence throughout all its businesses.

Our focus on environmental operation are broadly classified into two main categories:

- Reduction in Co2 Emissions
- Energy efficiency

Corporate Social Responsibility

"In a free enterprise, the community is not just another stakeholder, but is in fact the very purpose of its existence." These words by the Sir Jamsetji Tata, are at the core of Hartek's philosophy. We focus on two key areas:

Education

At Hartek we strongly believe that if you have to empower someone, empower that person with knowledge. Under this program, we sponsor students coming from economically challenged background and disabled students.

Health

We believe that “Healthy People means a Healthy Nation”. Under this program, we organize health camps partnering with top hospitals, free of cost quality health services, and helping with treatment coming from economically challenged background. Our focus is to provide an affordable and accessible healthcare to all.
